PROFILE

Computer Science student at Sorsogon State University, Bulan Campus, with skills in UI/UX and graphic design, and an interest in applying artificial intelligence to institutional digitalization. Currently developing a thesis on privacy-first, on-device retrieval-augmented generation (RAG) systems. Eager to learn, build practical software, and grow through collaboration.

EDUCATION

Bachelor of Science in Computer Science — Sorsogon State University, Bulan Campus

College of Information and Communications Technology (CICT)

THESIS

Privacy-First Personalized Student Assistant Using On-Device Retrieval-Augmented Generation and Persistent Memory

- Proposed a student assistant that runs retrieval on-device, keeping each student's data and memory local and private.
- Planned stack: ChromaDB vector store, FastText/ONNX metadata classifier, and Expo/React Native for the mobile app.
- Planned development using the Scrum framework over two semesters.

PROJECTS

Personal Portfolio Website — HTML · CSS · JavaScript

- Designed and built a responsive black-and-white portfolio with light/dark mode, scroll animations, and a mobile menu.
- Implemented sections for projects, certificates, skills, and a contact form, with an accessible, keyboard-friendly layout.

SKILLS

Design	UI/UX Design, Graphic Design
Web	HTML, CSS, JavaScript (basic)
Mobile	Mobile app development (Expo / React Native)
Tools & Methods	GitHub, Scrum
Languages	Filipino, English
